

## Visualization artefact:

- Visualization about COVID19 is an interactive visualization created in tableau  
[https://public.tableau.com/profile/spandynull#!/vizhome/Assignment\\_3\\_BanalaSpandana/MainDashboard?publish=yes](https://public.tableau.com/profile/spandynull#!/vizhome/Assignment_3_BanalaSpandana/MainDashboard?publish=yes)
- There are two data sets one which provides details of the present Covid 19 cases and other provide the details of measures taken by government
  1. For Cases details (dynamic Data)(created my me)
    - a. <https://data.world/spaaaaaaaaandy/covid19/workspace/query?queryid=1ba5e1c8-a534-41b4-806f-8ef81aa9b595>
    - b. <https://data.world/spaaaaaaaaandy/covid19/workspace/file?agentid=arvinde1&datasetid=coronatimeseries&filename=time-series-19-covid-combined.csv>

Data referred from third party

- a. <https://www.tableau.com/covid-19-coronavirus-data-resources>
- b. <https://data.world/covid-19-data-resource-hub/covid-19-case-counts>

### 2. Government Measures (Static Data)

20200409-acaps-covid-19-government-measures

- File for Code which can be executed locally
  1. We need tableau 2019.4 version to run the code
  2. Open the Unzipped file in the tableau for the Source Code
